Molina Launches Program to Deliver Gap in Care Alerts Directly to Electronic Medical Records (EMRs)

Molina Healthcare is pleased to launch our new program to deliver gap in care alerts directly to your EMRs effective November 12, 2021.

Through our new partnership with Centauri Health Solutions, the alerts – which appear as “Provider Notify” documents – provide actionable gaps in care information to you, our valued health care provider partner.

Benefits of this new program include:

- Delivers gap in care information for immediate care management and utilization directly into the provider’s EMR workflow---the information is readily available when you see the patient.
- Delivers complete clinical information electronically, reducing manual workflow
- Promotes completion of HEDIS gaps in care to promote capability to earn rewards in Molina’s pay-for-performance programs

Please send questions to ProviderCollaboration@MolinaHealthCare.com. Questions will be answered within 24 hours.
