  Ancillary
- ☒ CBAS
- ☒ SNF/LTC
- ☐ DME
- ☐ Home Health
- ☐ Other

California Health and Human Services Data Exchange Framework (DxF)

This is an advisory notification to Molina Healthcare of California (MHC) network providers regarding the California Health and Human Services (CalHHS) Data Exchange Framework (DxF).

Every Californian, no matter where they live, should be able to walk into a doctor's office, a pharmacy, a county social service agency, or an emergency room and be assured that they, and the health and human services providers who serve them, can access the information they need to provide safe, effective, whole person care—while keeping patients' data private and secure.

This is the goal of California's Health and Human Services Data Exchange Framework, a first-ever, statewide data sharing agreement that will accelerate and expand the exchange of health information among health care entities, government agencies, and social service programs beginning in 2024.

MHC encourages its providers to become part of this data sharing framework to better serve Molina members and all Californians. As part of the California Advancing and Innovating Medi-Cal (CalAIM) initiative, Enhanced Care Management (ECM) providers are particularly encouraged to participate in the DxF and obtain a signed statewide CalHHS Data Sharing Agreement.

Please see below for the topics and resources on the CalHHS website which will inform you of data sharing opportunities to increase the safety and effectiveness of member care:

- **The Data Exchange Framework explained:** https://www.chhs.ca.gov/data-exchange-framework/
