Hep C Initiative
The Michigan Department of Health and Human Services and Michigan Medicaid partnered with research-based global biopharmaceutical company, AbbVie, in effort to eliminate hepatitis C through the **We Treat Hep C Initiative.**

In Michigan it is estimated that 200,000 are living with Hepatitis C. Those living with Hep C are often unaware they have it and it can be silently spread quickly as individuals may not have symptoms for years.

Redetermination:

Molina needs your help reminding your Medicaid patients to update their contact information and renew their benefits, so they do not lose coverage. **Click Here** to find the most current resources and information – including our online provider toolkit. As Molina receives information from MDHHS, Molina will share specific lists of members due for redetermination to the office.
